## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Specification***

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The following title is suggested: "Washing Machine with Water Treatment Unit"

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-8 & 14-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, the phrase "cartridge-type" in describing the water treatment unit renders the claim indefinite because it is unclear what applicant intends. Is this phrase meant to somehow incorporate structure to the case of the unit or is this phrase meant to generally refer to the shape of the unit as a "cartridge"? Turning to applicant's specification, no limiting definition of such language exists. Accordingly, given its broadest reasonable interpretation (absent structural

language descriptive of what is meant by "cartridge-type") the phrase "cartridge-type" is broadly construed to read on any similarly shaped water unit known in the art. However, clarification and correction are still required.

***Allowable Subject Matter***

5. Claims 1-8 & 14-25 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: U.S. Patent Nos. 4,434,629 & U.S. Patent No. 7,296,444; U.S. Patent Publication Nos. 2004/0144136, 2004/0172985 & 2006/0185403; JP 05-068783 & JP 2004-057423, each disclosing a washing machine with water treatment unit including electrodes.
